RAISING YOUTH AWARENESS OF BIO-DIVERSITY
CONSERVATION VIA WEBTOON

**MULTIPLIER EVENTS
ACROSS EUROPE**

17 2025

Multiplier Events Overview:

-  Vienna, Austria (XsentrikArts) – 12 February
-  Berlin, Germany (Impact Grid) – 22 February
-  Raisio, Finland (Polygonal) – 1 March
-  İznik, Türkiye (NICEA) – 26 March
-  Berlin, Germany (NGO NEST) – 28 March

SHARING AND CELEBRATING BIOYOUOTOON'S IMPACT ACROSS EUROPE

Five Multiplier Events were held across Austria, Germany, Finland, and Türkiye, engaging over 130 participants. These events served as valuable opportunities to present the final results of the BioYouToon project, including the e-manual, the training toolkit, and the engaging digital comics developed by young people and youth workers throughout the project.

Each event offered a unique experience: from creative panels and biodiversity-themed documentaries in Vienna, to Erasmus+ networking in Raisio, to participatory sessions and visual storytelling in Berlin and İznik. Participants had the chance to explore how biodiversity education can be transformed through digital media, creative storytelling, and youth engagement.

The Multiplier Events not only celebrated the project's accomplishments but also strengthened local and international collaboration. Participants provided enthusiastic feedback on the resources presented, highlighting their relevance and accessibility for youth work, environmental education, and community outreach.
